What a pain. I hate to get the adobe connect and a phone line for nothing. If I get the phone, could you set up adobe connect? I guess we should assume it's happening. I'm calling into a meeting that Peter is attending in person in Tacoma in 5 minutes. He said he would be back in the office this afternoon, though.

I know only that David, Michael, & I all have it on our calendars. David said he has been unable to get ahold of Peter to confirm!

I'm pretty sure the Corps will not be there, but Elizabeth would like to call in. She would also like to join by adobe connect, but we don't have that set up either. Are we sure this is even happening?

I don't think so. So, you aren't presenting the HTL briefing?

I don't! Do you know if the Corps is attending?

Endre, I think this is happening at 3:30 today in 21Nisqually. Michael, please let me know if you know something different. Elizabeth would like to call into the meeting, and I didn't even know she was on the invite, but I don't think we have a call in number and I could set up adobe connect if I knew that we needed it.

Please chime in, anyone, if you know what's going on!

Thanks, Susan

Sounds like this is not materializing? Let me know if it does as I'm planning on teleworking tomorrow.

Also, regardless of the CEQ meeting possibility, I'd like to see if we can get this group together this week or next to discuss options and ideas. Sound good? If so, I can look time on our calendars.

Works for me, Peter, but the 2nd is a Friday, so I am assuming you mean Wed., Dec. 7th?

Jim,

Steve Kopecky from CEQ is in Seattle this coming Wednesday the 2nd and would like to have an in person briefing on our shared recommendation.

We were hoping the team was available on Wednesday morning say 9am and you could host at USACE? I would think an hour would do.

Would that work for everyone?

Thank you,

Peter
